7. 4

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor creases and discoloration, characteristic of old paper. The left edge of the page is bound, showing the stitching and the inner cover material. There is no text or other markings on the page.

## 3

100

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor creases and discoloration, particularly along the edges. A dark, possibly black, binding edge is visible on the left side of the page. The overall tone is warm and off-white.

## 1999

[illegible]

\_\_\_\_\_

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor creases and discoloration, characteristic of old paper. The left edge of the page is bound, showing the stitching or staples of the book's binding. There is no text or other markings on the page.

10

1

•

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor discoloration and dark smudges, particularly along the left edge, which may be due to the binding or handling over time. The right edge of the page is slightly irregular.

100

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor discoloration and dark smudges, particularly along the left edge, which may be due to the binding or age. The right edge of the page is slightly irregular.

DEATH INDEX  
1909

[illegible]

— 7 —

—

1

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor creases and discoloration, particularly along the edges. There are faint horizontal lines near the top edge, possibly from a previous binding or a scanning artifact. The overall tone is a warm, off-white or light beige.

## 4

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor creases and discoloration, particularly along the edges. The left edge of the page shows the binding of the book, with some of the adjacent page visible. There is no text or other markings on the page.

DEATH INDEX  
1909

[illegible]

1. 10. 1944

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor discoloration and dark smudges, particularly along the left edge, which may be from the binding or handling over time. The right edge of the page is slightly irregular.

[illegible]

DEATH INDEX  
1909

[illegible]

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor discoloration and a small dark stain near the bottom left corner. The binding edge on the left is visible, showing the stitching and the inner margin of the book.

5

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor discoloration and dark smudges, particularly along the left edge, which may be from the binding or handling over time. The right edge of the page is slightly irregular.
